The Council on Aging staff and board want to thank Linda Duvel, retiring chairperson of the Friends of the Acton Council on Aging, for her many (25 and counting!) years of dedicated service to the seniors of Acton.

Linda was a key person in starting this private non profit group with the primary purpose of raising funds to provide free programs and classes to Acton seniors, and to help furnish the Senior Center on Audubon Hill when it opened in 1994.

Under Linda's leadership, the Friends have continued to support many new classes, programs and trips offered by the Council on Aging, while also administering an Emergency Fuel Assistance Fund, initiating the File of Life program and providing new computers for the Senior Center computer lab.

Active in other community service groups as well, Linda has worked to better the lives of all Acton citizens, with a special commitment to our senior citizens. We wish Linda well as she moves to a new community, and greatly appreciate all she has done to make the Acton Senior Center an active and vibrant resource for all the senior citizens of Acton.

Holiday Fire Safety Tips

The Acton Fire Department, in conjunction with the Office of the State Fire Marshal, has compiled a two page printout of helpful hints for preventing fire tragedies in your home, particularly related to the holiday season. Here are some highlights, which hopefully we all know, but always bear repeating this time of year:

- Trim trees with flame retardant decorations.
- Keep trees away from heat sources, such as radiators, wood stoves and fire places.
- Water the tree daily, and dispose of before the needles dry out and become a fire hazard.
- If you select an artificial tree, choose one that is labeled "fire retardant".
- Unplug all decorative lighting before leaving the house or going to bed.
- **NEVER LEAVE A CANDLE UNATTENDED. NEVER HANG CANDLES ON A TREE.**
- When using decorative lights indoors or outside, use only approved lighting for both indoor and outdoor use.
- Check all lighting for frayed insulation or broken plugs and sockets. If the plug is damaged, **DO NOT USE IT.**
- Never overload outlets; use GFI outlets if possible.
- Put no more than three strands of lights on an extension cord.
- Never hide extension cords or electric wires under carpets.
- Be sure **ALL SMOKE DETECTORS ARE OPERATING.**
- Try to have a fire extinguisher accessible.
- If using a fireplace or wood stove, make sure chimney is well maintained.
- Use an approved container to dispose of hot ashes and secure tightly so loose embers can't ignite a fire.
-

Stay safe and enjoy this special time of year.
